

# QUANTUMRESPONSE<sup>®</sup> TECHNOLOGY

Information for pet owners

# PATIENT INFORMATION

Thank you for your interest in treatment with QuantumResponse® technology! We have summarized the most important information on this topic for you.

## WHAT IS QUANTUMRESPONSE® TECHNOLOGY?

According to the ideas of well-known molecular biologists such as Rupert Sheldrake, Bruce Lipton and others, there is a so-called „blueprint“ of our body on an „information level“ that describes an optimal, completely healthy body structure. Our physical body constantly tries to adapt to this blueprint through countless regulatory processes. We at Bruce Copen Laboratories also assume that our organism does not only function on the basis of physicochemical laws.

**Nowadays, animals are exposed to multiple stresses, so that the organism has to make great efforts to maintain its regulatory capacity. In order for the body to be able to regulate itself, it is of immense importance to maintain or restore the detoxification capacity. The body's own detoxification capacity depends strongly on the respective environmental and living conditions.**

The micronutrients contained in food affect body functions, as do chemicals and other toxins in food, such as drug residues, pesticides, and fertilizers, as well as electromagnetic waves and low frequencies (these include, for example, in addition to the public power grid, WLAN and cell phone radiation).

The environmental conditions target the molecular and even the genetic level, which means that the animal's immune system can be weakened by the various influences. Depending on the personal constitution, a susceptibility to infections and allergies can develop, but also chronic diseases can be a result.

With the QuantumResponse® technology, we determine energetic correlations (= resonance reaction) of your body, mind and soul to certain parameters from different areas with a computer-assisted procedure. A total of over 60,000 stored information patterns are available for this purpose. These parameters provide information about energetic stresses, which in total can impair the physical and psychosocial regulatory capacity.

**Treatment with QuantumResponse® technology belongs to the field of quantum or information medicine.**

## HOW DOES A TREATMENT USUALLY PROCEED?

---

**A treatment with QuantumResponse® technology takes place in several steps.**

Before the treatment, a basic anamnesis is taken during an initial consultation with the pet owner. QuantumResponse® technology can also be used here. The integrated basic scan can provide indications of possible causes for energetic blockages and disturbances. This is usually followed by a first basic balancing.

The second step is a detailed scan. It is completed in a few moments. In this phase, the organism is offered

various energetic aids in rapid succession and its reaction is automatically tested. Decisive here is the determination of the causes of blockages and disturbances as well as the balancing with the correct vibrations based on this. A resonance reaction (= correlation) of the organism only occurs if the help is also needed. The entire analysis is carried out on the basis of DNA-containing substances (fur, blood, etc.).

## QuantumResponse® process

Based on the results of the analysis scan, the identified disturbed areas can then be balanced and harmonised by means of further energetic impulses.

Depending on which energetic burdens have been determined, your animal therapist will then determine an optimal therapy plan for your animal together with you.

## ACCOMPANYING MEASURES

---

Depending on your animal's medical history and situation, it makes sense to accompany the balancing with QuantumResponse® Technology by administering food supplements, phytotherapeutics, homeopathic remedies or other medicines. Especially food and supplements should always be in supportive

resonance with the animal's organism. QuantumResponse® technology makes it possible to test feed and all other substances your animal comes into contact with (bedding, hay, detergents, grooming products, medicines, globules, etc.) for energetic compatibility.

Experience shows that animals whose feeds are continuously tested for good response can benefit greatly in the long term.

The treatment of behavioural disorders in animals can also be well supported with QuantumResponse® technology and helps to balance the psyche.

Disorders such as fear, aggressive behaviour or uncleanliness can be positively influenced.

## HOW LONG DOES A TREATMENT TAKE?

---

A complete treatment with QuantumResponse® technology takes approximately 30 - 40 minutes.

## HOW MANY TREATMENTS ARE NEEDED?

---

The number of treatments is always individually tailored to your pet. Sometimes just one treatment leads to amazing results. Under certain circumstances, several treatments may have to be carried out at intervals. So if possible, please understand that additional examinations and also follow-up checks are necessary for good therapeutic results.

## WHAT CAN YOU DO YOURSELF?

---

Always provide your animal with plenty of water that is as light as possible (low in minerals) during and even a few days after a treatment phase with QuantumResponse® technology. The water helps the body to remove dissolved metabolic products.

Follow the therapy plan of your animal therapist.

## FOR WHOM IS THE TREATMENT SUITABLE?

---

The use of QuantumResponse® technology is suitable for every animal. Only energetic signals are used, so that the method is absolutely painless and harmless even for young, pregnant, older and weakened animals. It can be used as an accompanying energetic

measure to veterinary therapies, as well as in human medicine, but also in personality training, wellness or in building biology.

## ARE THERE ANY SIDE EFFECTS?

---

The treatment itself is absolutely painless and has no side effects.

Usually your animal receives a strong „charge“ with different energy vibrations through the treatment. These can continue for a few days after the treatment. As a result, so-called initial worsening can occur, i.e.

you seem to feel worse for a short time than before the treatment. However, this is actually a „tidying up or repair action“ of the body, so this reaction is to be seen as positive. As a rule, these phenomena pass very quickly.

This practice offers sessions using Quantum Response® technology.
